

Centacare Evolve Housing Fact Sheet

Offering You a Home - Social Housing

When you apply for social housing through Housing Connect and meet the eligibility for social housing, your details will go onto their central waiting list.

When one of our properties become available, we will match the attributes of the property to the needs of the applicants on the waitlist as best we can – we call this our shortlist.

If you shortlist we will try to contact you when a home becomes available that may be right for you. At that time, we need to talk to you to confirm your current circumstances. It is important that you let Housing Connect know if your contact details change so we or other housing providers can contact you if you shortlist.

Keeping your information up-to-date

When you apply for social housing in Tasmania, you will have an assessment with Housing Connect. Housing Connect can work out what kind of housing you need and can help you if your circumstances change.

If your circumstances change while you are waiting for a home, you need to let Housing Connect know. It's important that all of your information is kept up-to-date. This will help us match you to a home that suits your needs.
